1-TO-1 TEST PREP

MASTER THE TEST AT YOUR OWN PACE.

Here are a few reasons why 1-to-1 prep is the way to go:

Strategic Learning:

We identify each student's strengths, areas of need, and learning style through an initial diagnostic assessment. Test preparation is then planned around the student's schedule to teach new concepts, reinforce knowledge, and build strategic test-taking skills.

Individualized Lessons:

Every 1-to-1 plan includes dedicated time for teachers to create lessons that target each student's individual needs and goals.

Test Simulations & Homework:

We proctor test simulations to gauge progress and assign personalized homework to consolidate learning.

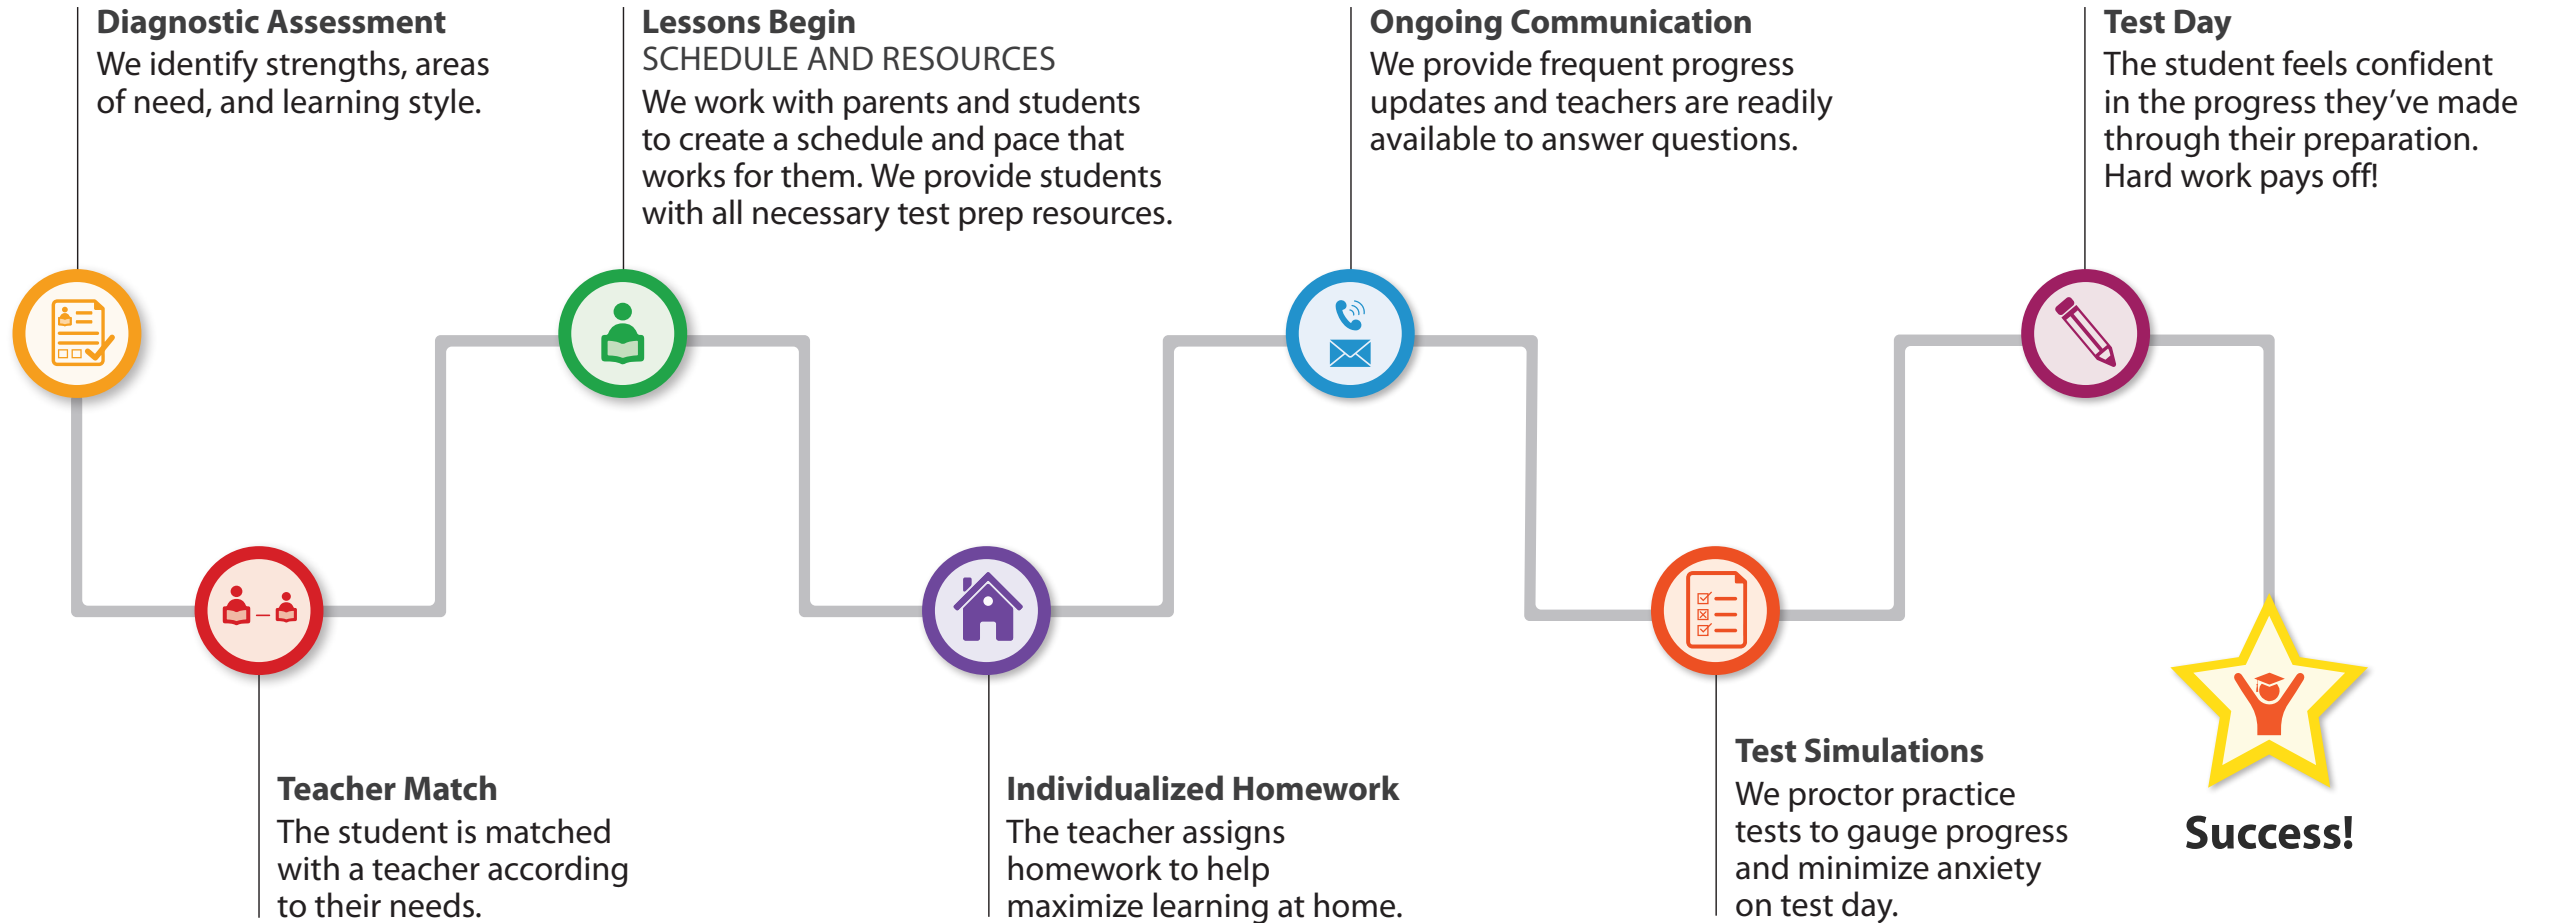

Ongoing Communication:

We provide students and parents with frequent progress updates and teachers are readily available to answer questions.

Support for Students of All Abilities:

We understand that everyone learns differently! We are experts in supporting students with all types of learning needs. We also guide parents and students through the process of applying for accommodations, by request.
